Computations in Nutrition: A guide for health care workers.

Author: Donnette Wright-Myrie (WIGUT member)

This booklet provides a template for common nutritional calculations. It provides contemporary evidence regarding anthropomorphic formulae and predictions and examines their value to health maintenance.

Every segment includes multiple practical scenarios and questions that are structured to assist the health care worker master nutritional computations. Written in simple language, comprising health related scenarios, convenient and handy, this guide is useful for health professionals in training and practice.

Meet our WIGUT (Jamaica) Scholarship Recipients

Graduate Recipient

Mrs Susan Mais

I am beyond ecstatic at being selected for such a prestigious award!

I want to thank the WIGUT and its executive body for creating such an award that will undoubtedly change students' lives such as mine.

I promise to be a proud WIGUT Ambassador serving with commitment, tenacity, enthusiasm and hard work.

Once again thank you!

Best regards,

Susan Mais

Undergraduate Recipient

Mr Jermaine Reid

My name is *Jermaine Reid*, and currently, I am pursuing a BSc. degree in the field of Biotechnology along with a minor in Management Studies. These aspirations would be void if it were not for WIGUT in helping to pave the rungs of my academic ladder to achieve my goals.

This act of kindness, in awarding me the Joe Pereira Scholarship, has certainly contributed to making me a better person, one who will always be grateful. So, it goes without saying that the Interviewers, and all the members of this Union, have blessed my life remarkably, and is deserving of all the adulations.

Jermaine Reid

Remember to contribute to WIGUT's Scholarship & Bursary Fund!
